kaleah lee - Where'd The Time Go?

With the people and the places tom: G [Intro] C G That you no longer know And how the way your mom speaks Wove it's way through your tongue And the hope that your laugh C Micro-awareness and the passing of time Might be keeping her young G Wrapped in a ribbon and the lines by your eyes Yet you argue and you bicker Notice the hollowing out of your cheeks And you just want your space How you've grown up to desire nights quiet and meek G But now you're far C A bright start to your day Rippled reflections flicker back your dad's face And the goldmine of sleep Where'd the time go? G How you welcome the tears С G Where'd the time go? How the juice switched to tea Where'd the time go? And how the big things, they are shrinking G Where'd the time go? And the small things they've grown (CG) G
