

Kali Uchis - Perfect

Tom: F

Boy I know, that we could be more
Than just friends, but you're scared
Boy I know, that we could be more
Than just friends, but you're scared (I know)

I know that there could be
Somethin' for you and me
What's your philosophy?
You're scared, scared

And I exit and wait a while
(Just say a word, girl)

See the answers are all there

(But I'm just too blind to see)

You and I are cut from different fiber
(I wonder why, I wonder why, girl)

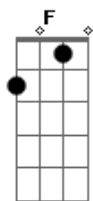

Don't be too material to see
(But I'm just too blind to see)

In this world is such a struggle just to be
Fuck 'em all baby, it's just you and me

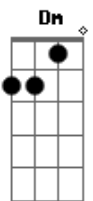

You make me better
And I know this don't make sense
But you make me better

Alone, alone, alone, alone
At home, alone, alone, alone
