

Kalyio - Take what you can get

Tom: **E**

m [Intro] **Em C G B**

Em
She's one of those girls; you just take what you get

C G
Whatever sweet little morsels that just drip, drip, drip

Em
She's the last one you call when your car doesn't start

C G B
But she lights up the party, when you need a little spark

Em
She never has no money. It just runs down her neck

C G B
Never had a man that wouldn't have her back

Em
You're not at all running, but you'll take what you get

B C G
Whatever sweet little morsels that just drip, drip, drip, drip, drip

Like morning

C
Drip drip drip drip drip
She stunning

G B Em
Drip drip drip drip drip
You're near her

C
Drip drip drip drip drip

G B Em
You know you'll take what you can (get)

Em
The clever things she says, you could coin every phrase

Her body's so rocking, got your mind in a haze

Em
It's one of those things, once you're caught in the net

C G
Whatever sweet little morsels, you will take what you can get

B Em
You know you'll take what you can get

G B Em
You know you'll take what you can (get)

Em
On and on, on down the road

C G B
Take your moment in her glow

Em
There's no one way to do it, there's no one way to win

C G B
But we already know you're gonna take what you can

Em
On and on, on down the road

C G B
Take your moment in her glow

Em
There's no one way to do it, there's no one way to win

C G B
But we already know you're gonna take what you can get

C
You know you'll take what you can get

G B Em
You know you'll take what you can get

C
You know you'll take what you can get

B G Em
You know you'll take what you can get
