

# Kamelot - Wander

tom:  
Eb

I recall one summer's night / With in the month of June  
Flowers in mahogany hair / And smell of earth in bloom  
Only such a melody / Comes without a sound  
More than faintly heard by those / Who know what they have found  
Now it's just a memory.

Silently we wander / Into this void of consequence  
My shade will always haunt her / But she will be my guiding light  
Silently we wander / In search of truth and confidence  
So many hopes were lost here / Along the way  
From morning to night  
Meet me by the wishing well / In cover of the moon  
Whisper to me tenderly / That I will see you soon  
Sing that song from long ago / So I remember you  
Flowers in mahogany hair / And mellow days in June
