

Kansas - Miracles Out Of Nowhere

```
Tom: C
                                                                     Tell me where ya goin' to?
                                                                     (refrão)
(intro 2x) Am G C D
                                                                     It's so simple lying right before your eyes
On a crystal morning I can see the dewdrops fallin' Am G Am G F C
                                                                     If you'll only look through this disguise
Down from gleaming heaven, I can hear the voices call
                                                                     Am G F G It's always here, it's always there
F C G Am G
When you comin' home now son, the world is not for you
Am G F G Am
Tell me what's your point of view?
                                                                     It's just love and miracles out of nowhere
                                                                     Love and miracles out of nowhere
Hey there Mr. Madman, whatcha know that I don't know

Am G Am G F C

Tell me some crazy stories, let me know who runs this show
                                                                     (instrumental break)
                                                                     I sang this song a hundred, maybe a thousand years ago
                            G
Glassy eyed and laughing he turns and walks away
                                                                                      F G
                                                                     No one ever listens, I just play and then I go
Am G F G Am G D
Tell me what made you that way?
                                                                                 С
                                                                                                   G F Am G
                                                                     Off into the sunset like the western heroes do
(refrão)
                                                                     Am G F G Am G D
                                                                     Tell me what you're gonna do
Here I am just waiting for a sign C G F G
                                                                     (refrão)
Asking questions learning all the time
                                                                            G
                                                                                    F
It's always here, it's always there
                                                                     Here I am, I'm sure to see a sign
It's just love and miracles out of nowhere
                                                                     All my life I knew that it was mine
                                                                     It's always here, it's always there
(solo violino)
                                                                     It's just love and miracles out of nowhere
Tell me now dear mother, what's it like to be so old footnote{Am} footnote{G} footnote{Am} footnote{G} footnote{F}
                                                                     Love and miracles out of nowhere
                           Am
Children grown and leaving, seems the world is growin' cold
F C G Am (
And though your body's ailin' you, your mind is just like new
                                                               Am G Out of nowhere
                   G Am G D
                                                                     (instrumental outro)
