

Kate Havnevik - Grace

```
Intro: D G D G
I'm on my knees
Only memories
Are left for me to hold
Don't know how
But I'll get by
Slowly pull myself together
I'll get through this
      D
There's no escape
So keep me safe
This feels so unreal
Nothing comes easily
              G
Fill this empty space
Nothing is like it seems
               G
Turn my grief to grace
```

Acordes

```
I feel the cold
Loneliness unfold
Like from another world
Come what may
I won't fade away
But I know I might change
Nothing comes easily
Fill this empty space
           D
Nothing is like it was
Turn my grief to grace
Nothing comes easily
          G
Where do I begin?
          D
Nothing can bring me peace
C    G
I've lost everything
I just want to feel your embrace
