

KATSEYE - I'm Pretty

```
Na-na, na-na-na
                tom:
                                                               Na-na, na-na
       Na-na, na-na
Na-na, na-na-na
                                                               Na-na, na-na-na
Na-na, na-na
Na-na, na-na-na
                                                               They always told me to lose the old me
Heartbreak, move on
                                                               Chip away, find my pain in beauty, yeah
                                                                              Am
New face, new song
                                                               My emotions, keep on going
I'll meet someone, then back to square one yet
                                                               Just conceal when they start flowing
Try to hold on
                                                               Ooh, just when I think it's too much
Just commotion
                                                               I dry my tears with makeup,mm
Cycle turns and does what it wants
                                                               Ooh, things I could do with this brush
Ooh, just when I think it's too much
                                                               You'd never know that I hurt, no
I dry my tears with makeup
                                                               Yeah, I'm pretty (pretty)
