

Katy Perry - Resilient

tom:

G

I know there's gotta be rain if I want the rainbows

And I know the higher I climb, the harder the wind blows

Yeah, I've gone to sleep, night after night, punching a pillow

But do you know the darker the night, the brighter the stars glow

'Cause I am resilient, a full flower moment

Won't let the concrete hold me back, oh, no

I am resilient, born to be brilliant

You'll see me grow right through the cracks, yeah

'Cause you're gonna watch this flower grow right through the cracks

I've got to shed all this skin if I want the distance

Let the Sun in, pull out the weeds and focus my vision

'Cause there's no mistakes, just bends and breaks and friction

But do you know the hotter the fire, the purer the gold is?
