

# Katy Perry - This Moment

Tom: **G**

Can you tell me, who called the race?  
 Can anyone stay in one place?  
 And when you get to the finish line  
 Will you wish for more time?

But see, one day, one day you will  
 But maybe one day you will find  
 That you just can't push rewind

All we have is this moment  
 Tomorrow's unspoken  
 Yesterday is history

So why don't you be here with me?

All we have is this moment  
 To put our love into motion  
 Yesterday is history

So why don't you be here with me?  
 Be here with me now

Do you ever think that, we're just chasing our tails?  
 Like life is one big fast treadmill  
 And we pop what is prescribed  
 If it gets us first prize

But you know who I, who I think will win  
 Are the ones that love loving

Are the ones that take the time

All we have is this moment  
 Tomorrow's unspoken  
 Yesterday is history

So why don't you be here with me?  
 All we have is this moment  
 To put our love into motion  
 Yesterday is history

So why don't you be here with me?  
 Be here with me now  
 Be here with me now

'Cause the future is right now, right in front on you  
 Don't let the clock, the clock tell you what to do  
 A future is right now, I'm in front of you  
 Baby don't blink and miss

This moment  
 Tomorrow's unspoken  
 Yesterday is history

So why don't you be here with me?  
 All we have is this moment  
 To put our love into motion  
 Yesterday is history

So why don't you be here with me?  
 Be here with me now
