

Keane - Again And Again

```
Tom: C
   (intro 2x) G Am Dm C
Was it all in real time
Or was it just in my mind
(G) Am
Or was i just a ghost passing through you?
(G ) C
Clinging to the wreckage
Until i got the message
(G) Am
Hanging at the edge of the room
(pre-chorus)
Give me something that's real
Give me half of your bitterest pill
Something from under the surface
     Dm
You actually feel
(chorus)
                     Am
We say these words again and again
But they still sound the same
               Am
It was in your eyes, in your eyes
     C
They were just easy lies
(verse)
The lightest words are heavy
And promises are easy
(G) Am
And no one's ever happy or sad for very long
(G ) C
But just because i said it
It doesn't mean i meant it
(G) Am
I guess that was the way all along
```

(pre-chorus)
I'm just shaping the sound
I'm just turning the syllables round Em Dipping my toe in the water
Dm F And watching you drown
(chorus) G Am Dm
We say these words again and again C F
But they still sound the same G Am Dm It was in my eyes, in my eyes
They were just easy lies
(bridge) Am F C Em
And it's been a long time waiting Am F F Em
And it's been a lifetime in the making
(solo) G Am Em C F
(chorus) G Am Dm
I said when you are alone and afraid C F
I will come to your aid G Am Dm
Was it just a dream, just a dream ${\sf C}$
'cos was it real to me
G Am Dm We say these words again and again C F
But they still sound the same G Am Dm Say these words again and again
C F And again and again
(outro) Am
