

# Keane - On a day like today

Tom: F

IMPORTANTE: no início, a música é uma bateria leve com um acompanhamento que pode ser seguido conforme a cifra a baixo. Espero que gostem !

Obs: Essa música é a 10ª faixa do HOPES AND FEARS na versão europeia !!!

On a day like today  
I looked at you and I  
Saw something in the way  
You stared into the sky

I saw you... were sick  
And tired of my wrong turns  
If you only knew the way I feel  
I'd really love to tell you

But I  
could never seem to say the things I needed to  
On a day like today no other words would do

I saw you... were sick  
And tired of my wrong turns  
If you only knew the way I feel  
I'd really love to tell you

But I can never find the words to say and I don't know why  
I can't find the words to say and I don't know why  
I can't find the words to say and I don't know why  
I can't find the words to say and I don't know why  
..... vai assim
