

Keane - Something In Me Was Dying

Tom: G

INTRO (4x):

G G Bm | Bm Bmadd9- |

VERSE 1:

Something in me was dying
And my heart was heavy as stone
Hard as i was trying
I never could find, find my way home ...

And your voice came out of nowhere
Be my friend and give me your hand
Let's take off together
And then we can live wherever we land

2x INTRO CHORDS

VERSE 2: (the same chords as verse 1)

Something in me was broken
And my thoughts were bitter and ill
My world was blown open
And I couldn't see and i couldn't feel

You said be yourself and think of me
And you'll know there's nothing to fear
Let's make plans together
It's time to move on and get out of here

BRIDGE:

Girl i need you
Don't know what I would do

Will you see the story through

It's a cruel world
And I need somewhere to hide
But time goes by
And your still on my side

VERSE 3: (the same chords as verse 1)

Something in me was sinking
Cause my heart was heavy as stone
I gave up with thinking
I never would find, find my way home

And your voice came out of nowhere
Be my friend and give me your hand
Let's take off together
And then we can live wherever we land

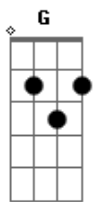

BRIDGE:

Girl i need you
Don't know what i would do
Will you see the story through

It's a cruel world
And i need somewhere to hide
The time goes by and your still on my side
Intro: chords till the end...

Waiting
Searching
Turning over
Running round in circles
And i've worn myself out
Hoping that we'll always be together
yeah we'll always be together
