Let's take off together  
And then we can live wherever we land

BRIDGE:

-----  
Girl i need you  
Don't know what i would do  
Will you see the story through

It's a cruel world  
And i need somewhere to hide  
The time goes by and your still on my side  
Intro: chords till the end...

-----  
Waiting  
Searching  
Turning over  
Running round in circles  
And i've worn myself out  
Hoping that we'll always be together
