# Keane - The Happy Soldier

Tom: C
Intro: Am F C G

```
Am      F      C      G
I've been thinking
Am      F      C      G
Why don't we
Am            F                 C        G
Jump onboard some gunship
Am           F            C      G
And sail away to sea
          Am                F
And if I'm seized by enemy

     C
Of any kind
G
I don't mind
     Am
They'll be sorry
F
Wait and see
            C                  G
The SAS will rescue me

Am    F    C    G
```

```
I've been thinking
Am  F    C        G
I'm so bored
Am         F         C              G
What a life to live and die
    Am       F       C      G
By the silver sword
            Am                            F
And if I'm crashed on stormy seas
               C                          G
The darkness falls and all I see
             Am
Is a desert island

      F
That's ok
        C                       G
I'll use the stars to find my way
Am               F
If I'm drifting to no-man's land
C            G
GHQ will lend a hand
                      Am                   F          C
G
And there's nothing king and country wouldn't do for me
```

Acordes

C   Am   F   G
