

## **Keane - You Are Young**

tom: Fearful child, have faith in brighter days Stay until this darkness fades away Lie still beside me I?ll hold you now, I?ll hold you forever Winter's hand will freeze your heart again Doors will close, no time to start again Nothing is given, except the ties that hold us together Lay down your load Because everyday it?s going to grow And bask in the sunshine Try to pay no mind, try to pay no mind at all To all the things that you don?t know You?ve got time to realise You?re shielded by the hands of love Because you are young Fading light may make a fool of me Courage fail, strength slip away from me Lie still beside me

And hold me now and hold me forever Lay down your load Because everyday it?s gonna grow If these days are sacred Hey now don?t be scared, baby don?t be scared at all Of all the things that you don?t know You?ve got time to realise You?re shielded by the hands of love Cause you are young You?ve got time you?ve got to try To bring some good into this world Because you are young Because you are young Oh oh oh woah Oh woah oh Oh oh oh woah Oh woah oh Oh oh oh woah Oh woah oh Because you are young
