Keaton Henson - If I'm To Die

Tom: C

```
Intro:  C  E  Am  G  F
        C  G  G
```

```
Verso:
        C                 E
If I?m to die before I reach you
                Am                  F
Please know I?m meant to love you till I did
         C              E
If I?m to slip beneath a train meant to take me
        Am                    F
Know that I believe that it was worth it
        C                        E
Tell my friends goodbye, tell my almost ex-wife
      Am            G           F       G
That I loved her and left her too soon
      Am        G         F
Oh I hope to be holding you soon
```

```
Refrão:
C                              G
Who knows what happens if I leave my room
      Am            G                 F
Oh I?m scared that you?ll know what to do
E               Am G F F  G G
If I?m to die before you
```

```
Verso:
         C              E
If i?m to die before I hold you
        Am                    F
Know my arms were the worst off for it
        C                   E
If i?m set upon dried from my room as I write
         Am                    F         G
You won't be my last thought before I quit
        C                 E
Give my family love I would watch from above
```

```
          Am                        F        G G
But I fear there is nothing but sleep
        Am        G           F
Oh I hope to be seeing you soon
```

```
Refrão:
C                                  G
Don?t know what's out there, more fear I assume
       Am            G           F
Oh i?m scared that you?ll know what to do
E                        Am G F  G G
If i?m to die before you
```

```
Verso:
                 C              E
And if i?m to die before we spend a soft day
          Am                       F
Know my final thoughts will be of regret
         C              E
If i'm to drown in the deep sea that parts us
      Am           G            F        G G
I once lived and loved, don?t forget
             C                     E
Give my paintings to Alice, tell all my good friends
          Am                  F        G G
That I didn?t dare earn their respect
      Am        G         F
Oh I hope to be seeing you soon
```

```
Refrão:
      C                      G
I don?t know what happens if I leave my room
      Am            G           F
Oh I?m scared that you?ll know what to do
E                Am G F
If I'm to die before you
G                      C
If I'm to die before you
```
