                                                              Baby I must admit it
                                                              That now I really get it
I've been high I've been low
                                                              That's why I'm singing
      G
I've been everywhere I wanted to go
                                                              D

But I've never been here before
                                                              G

      G
I've been all around the world
                                                                         Bm7
                                                                                F7
                                                              How could I have been so blind
Even outer space
                                                             But now you got me singing
But what I'm seeing right now
Feels like a brand new place
                                                              La laba dee da

I was so damn close that if it was a snake it would've bit me

For the first time in my life

I see love (I see love)
                                                              'Cause now you got me singing

I've been in, I've been out
                                                                    Ab

Of every kind of love affair

But all I ever got was the blues

I've had money, cars and some good champagne

But your love is much better
                                                                    Ab

Than all of those things
                                                                            Bm7

I'm so glad to have you here with me
