Abm Em

I, I, I, I

[Primeira Parte]

B

Up for hours drinking

Em

Posted up, just reflecting on it

B

And I know you won't believe me

Em

But babe, I'm cold and yeah, this life is cold

B

I say swear you won't come near me

Em

Keep your heart 'cause I could fuck you up

B

Or have you never thinking clearly

Em

Never thinking clearly

B

Have you all up in your feelings

Em

Experienced, I did it times before

B

And I can see you from a distance

Em

I could fuck you now and years later on

B

You gon' be stuck, just reminiscing

Em

It's the way I ride you, let you stay inside

B

Yeah, I'ma fuck you like a vixen

Em

There's something 'bout me

[Pré-Refrão]

B E

Swear you see the good in me

Abm Em

But that don't beat the hood in me

B E

And I got my intentions and use

Abm Em

Guess I'm make believe 'cause baby

I know, baby, I know

[Refrão]

Abm Dbm Abm

I, I'ma do you dirty

Em

Say you love me now, baby

It's too early

Abm Dbm Abm

I, I'ma do you dirty

Em

You think you love me now

I think you should be worried

[Ponte]

Abm Dbm

You want all my time but I don't got enough

Abm Em

Baby, I can put it down but I can't put it up

Abm Dbm

I got too much time to live

Well I'm still way too young

Abm Em

I'm still way too young, yeah

[Final]

B

Up for days, been rolling

Em

Swear them bullets, don't regret the choices

B

That I made 'cause I'm still growing

Em

Sign the deal and then they cut the check

B

And ever since, my color's showing

Em

Change the scene, the things are better now

B

And you know the wave is never slowing

Em

The wave is never slowing

B

I know that you will miss me

Em

You liked it when I used to leave a wound

B

And promise I would come and kiss it

Em

I fed you lies and you just ate 'em up

B

And I don't care to do the dishes

Em

I ain't no wifey, ain't gon' hold you down

B

It's way more fun to be the mistress

Em

I know I'm not like other bitches
