

Keira Knightley - Coming up Roses

Tom: **Gb**
Intro: **Bbm** **Gb** **Bbm** **Gb**
When you were asleep
And I was out walking
The voices started to speak
And they wouldn't stop talking
There were signs all around
It really got my mind racing
You were right all along
Something's gotta change

Now we're back on the street
Found a song that's worth singing
The blur that knows a defeat
While your victory bell's ringing,
My whole life's turned around
For this thing you keep chasing
You were right all along
It's me who's got to change
