Keith Urban - Somebody Like You

Tom: E
Intro: E B A E B A

```
E
There's a new wind blowing like I've never known
      E
I'm breathing deeper than I've ever done
      B                 A                    E
And it sure feels good to finally feel the way I do
           B            A          E
And I wanna' love somebody, love somebody like you

E
I'm letting go of all my lonely yesterdays
            E
I've forgiven all of the mistakes I've made
           B            A            E
Now there's just one thing, the only thing I wanna' do
         B           A          E
I wanna' love somebody, love somebody like you

                  A                          E
Yeah, I wanna' feel the sunshine, shining down on me and you
              A
When you put your arms around me

                  E
I used to run in circles going nowhere fast
```
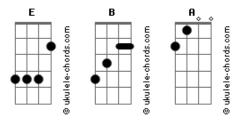

```
                E
I'd take one step forward and two steps back
            B                 A                    E
Couldn't walk a straight line even if I wanted to
            B            A          E
And I wanna' love somebody, love somebody like you

Whoa, here we go now!

Solo: E  B  A  E  B  A

Hey, I wanna' love ya' baby!  Uh-huh!

E                          A                          E
Yeah, I wanna' feel the sunshine, shining down on me and you
                     A
When you put your arms around me

E
Sometimes it's hard for me to understand
                E
But you're teaching me to be a better man
                B               A                    E
Don't wanna' take this life for granted like I used to do
         B           A          E
I wanna' love somebody, love somebody like you
         B           A          E
I wanna' love somebody, love somebody like you
           B           A           E
I'm ready to love somebody, love somebody like you, yeah!
```
