When does it start, and when does it? Over and over and over again It's so much deeper than under my skin Is this a battle that I'll ever win? When does it start, and when does it end? Over and over and over again It's so much deeper than under my skin Is this a battle that I'll ever win? When does it start, and when does it end? Over and over and over again It's so much deeper than under my skin Is this a battle that I'll ever win? When does it start, and when does it end?
