To me

You are the hand that i reach for

When i've lost my way

To me

You are the first star of evening

The sun that warms my day

Just as sure as i'm sure

There's a heaven

This was meant to be

No road is too long

As long as you belong

To me

To me

You are the truth i believe in

I believe in you

To me

you are the love i have looked for

My whole life through
