Ke$ha - Rainbow

Tom: C

```
     C
   I used to live in the darkness
Am
   Dress in black, act so heartless
     F              G
But now I see that colors are everything
C
   Got kaleidoscopes in my hairdo
Am
   Got back the stars in my eyes, too
     F              G
Yeah now I see the magic inside of me

C
   Yeah maybe my head's fucked up
Dm                                      F
   But I'm falling right back in love with being alive
          G
Dreaming in light, light, lights
C
   This kitty cat lost her mind
Dm                                    F
   Been lookin' for a star-sent sign that I'll be alright
   G
Look to the skies

             C
I?ve found a rainbow, rainbow, baby, trust me
Am
I know life is scary
              F
But just put those colors on, girl
G                      C
Come and play along with me tonight

C
   I'd forgot how to daydream
Am
   So consumed with the wrong things
     F           G
But in the dark, I realized this life is short
C
   And deep down, I'm still a child
Am
   Playful eyes, wide and wild
    F                G
I can't lose hope, what's left of my heart's still made of
gold

C
   And I know that I'm still fucked up
Dm
   But aren't we all, my love?
F                     G
Darling, our scars make us who we are, are
C
   So when the winds are howling strong
Dm
   And you think you can't go on
F               G
Hold tight, sweetheart
```

```
                 C
You?ll find a rainbow, rainbow, baby, trust me
Am
I know life is scary
         F
But just put those colors on, girl
G                      C
Come and play along with me tonight

                     C
You gotta learn to let go, put the past behind you, trust me
Am
I know, the ghosts will try to find you
            F
But just put those colors on, girl
G                          C
Come and paint the world with me tonight
