

# Ke\$ha - Shadow

tom:  
 I feel so good, why you so mad?  
 And I'm so happy and you hate that  
 But I love love and I love life  
 And I love tripping in the desert with my best friends  
 Seeing spaceships in the sky

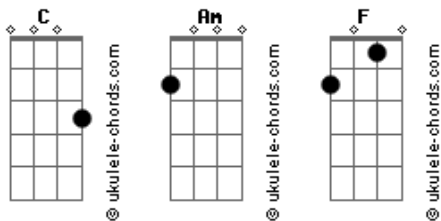

[Pre-Chorus]  
 And I love singing "fucking" on my songs  
 Cuz the only people who got time to get offended  
 Are the ones who probably never gotten off

[Chorus]  
 So get your shadow out of my sunshine  
 Out of my blue skies, out of my good times  
 So get your darkness out of my gateway  
 I'll be dancing in the rain  
 I will love you even though you hate me  
 I will love you even though you hate

[Verse 2]  
 We all got shit, who's to throw stones  
 Live and let live or just stay the fuck home  
 So if you love love, if you love life  
 Then we can share this blue Dodge van and end this in the night sky

[Pre-Chorus]  
 And if you love partying then party on

## Acordes

And if you're here to throw shade  
 Then you're in the wrong place  
 Yeah you're fucking my sun

[Chorus]  
 So get your shadow out of my sunshine  
 Out of my blue skies, out of my good times  
 So get your darkness out of my gateway  
 I'll be dancing in the rain  
 I will love you even though you hate me  
 I will love you even though you hate

[Bridge]  
 I'll just keep on doing what I do best  
 Pissing off people who wanna be pissed  
 Hate is the poison, love's the elixir  
 If you don't like me you can suck my dick

[Chorus]  
 So get your shadow out of my sunshine  
 Out of my blue skies, out of my good times  
 So get your darkness out of my gateway  
 I'll be dancing in the rain  
 I will love you even though you hate me  
 I will love you even though you hate  
 I will love you even though you hate me  
 I will love you even though you hate me  
 I will love you even though you hate me  
 I will love you even though you hate me
