# Kevin Morby - Parade

Tom: A
Intro: A

```
A                             Bm
If you come to find out who you are,
       D                              A
May you find out, may you find out who you are.
                                    Bm
And if you come to search for what is lost,
        D                           A
May you find it, may you find it at any cost.
                        Bm
And if you come over far,
            D                   A
Never I'd touch you or ever do you harm.
                       Bm
And if you come oh so soft,
          D                        A
You may look up one day and you'll be heard.
```

Chorus
```
Bm                D
If I were to die today,
  Bm                    D
Slaughtered in that masquerade.
       Bm                   D
The last thing that you'd hear me say,
 Bm              D
Put my body on display.
            A      A  A
In the parade.
   Bm                        D
Passing slowly through the town.
      Bm                    D
My feet taking I, touch the ground
        A      A  A
Of the parade.
