

# K.Flav - Blood In The Cut

Tom: E

m [Intro] Em

The boy I love's got another girl

He might be fucking her right now

I don't have an apartment

Thought if I was smart I'd make it far

But I'm still at the start

Guess I'm contagious it'd be safest if you ran

Fuck that's what they all just end up doing in the end

Take my car and paint it black

Take my arm, break it in half

Say something, do it soon

It's too quiet in this room

I need noise

I need the buzz of a sub

Need the crack of a whip

Need some blood in the cut

I need noise

I need the buzz of a sub

Need the crack of a whip

Need some blood in the cut

I need blood in the cut

I need blood in the cut

Met back up with the boy I love

Cried on the streets of San Francisco

I don't have an agenda

All I do is pretend to be ok so my friends

Can't see my heart in the blender

And lately I've been killing all my time

Reading through your messages

My favorite way to die

Take my head and kick it in

Break some bread for all my sins

Say a word, do it soon

It's too quiet in this room

I need noise

I need the buzz of a sub

Need the crack of a whip  
Need some blood in the cut

I need noise

I need the buzz of a sub

Need the crack of a whip

Need some blood in the cut

I need blood in the cut

I need blood in the cut

I-I-I I-I I-I-I

I-I-I I-I I-I-I

Blood in the cut, cut, cut

Na na na na na

I need noise

I need the buzz of a sub

Need the crack of a whip

Need some blood in the cut

I need noise

I need the buzz of a sub

Need the crack of a whip

Need some blood in the cut

I need blood in the cut

I need blood in the cut
