

KG CROWN - Picture Perfect Love

tom:
Intro: C Am F B

We met on the rooftop
Of your old loft
You showed me all your favorite Tik Toks
We talked about your father
At the Americana
There under the moonlight
It felt so right
You had me blinded with your brown eyes
Now you got a new friend
And I've lost my

Picture perfect love
I gave you so much
And all that I got was this ocean of nothing
And this broken
Picture perfect love
You made me look so dumb
Swimming around in this ocean of nothing
No more picture

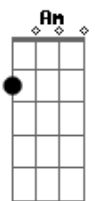

You're doing amazing while I'm breaking
I really miss the way that we were
I thought you were the end game
You told me you felt the same
Ooh ooh

My ride or die it was you, you
But now you got a new friend
And I've lost my
Picture perfect love
I gave you so much
And all that I got was this ocean of nothing
And this broken
Picture perfect love
You made me look so dumb
Swimming around in this ocean of nothing
No more picture perfect love

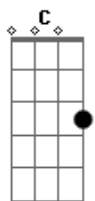

[Interlúdio] C Am

You know that my grass is greener
But you had to try
You had to try
I'm going mad 'cause you'll never come back yeah
And now there goes my
Picture perfect love
I gave you so much
And all that I got was this ocean of nothing (nothing)
And this broken
Picture perfect love
You made me look so dumb (so dumb)
Swimming around in this ocean of nothing (nothing)
No more picture perfect love
