

Khalid - Reasons

```
Intro: Ab Gm Cm Fm
       Ab Gm Cm Fm
Evade my intellect
Feed into my introspect
Wrap your words around my brain
Driving me insane
You found the real me
Save my inner being
Switch on me like seasons
Do I need to give you a reason?
There's millions of reasons to love you
There's millions of reasons
         Cm
Give me a reason to want you
         Fm
Give me a reason
     Ab
Give me a reason, give me a reason, give me a reason.
Give me a reason, give me a reason, give me a reason.
I know you're tired of inconsistency
Are you into me? Are you feeling me
To be honest I'm into you,
                            Gm
      Fm
And the way that you talk is so damn cool
With your love I'm on a different high
         Gm
I've never felt before
And if your love is a drug, I'm an addict
            Fm
Cause damn I'm feigning for more
We been talking for a minute now
                     Gm
Let me know where your heads at, am I in it?
```

Acordes

```
You put me on your super high
I want to get lost in your paradise
There's millions of reasons to love you
                   Gm
There's millions of reasons
Give me a reason to want you
        Fm Gm
Give me a reason
        Ab
Give me a reason, give me a reason, give me a reason.
Give me a reason, give me a reason, give me a reason.
Lucid dream. In reality
Gm
I'm just tryna feel your gravity
Always fallin in love, and I'm tired of the cycle
We don't even need a title
      Ah
You're always on my mind
It's funny how I'm thinking about you all the damn time
                   Cm
You don't gotta be mine, just be mine for the night
I don't know what this is but it feels just right
I wanna make a move
Let me know if that sounds cool
Cm
All the things I'd do
All the things I'd do for you
There's millions of reasons to love you
There's millions of reasons
        Cm
Give me a reason to want you
        Fm
               Gm
Give me a reason
Give me a reason, give me a reason, give me a reason
     Cm
```

Give me a reason, give me a reason, give me a reason
