

Kiko Bairua - Falling

tom:
Db (forma dos acordes no tom de G)
Capostrate na 6ª casa

It's been 2 weeks since i'm out of the blue

We can keep it right
We can keep it cool

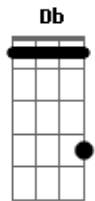

Saw you walking down the street
Everything feels right to me
I just dream to feel you breathe

I'll put on a mask
Then I'll put on a show
When I start performing
Will they stay or go?
Everybody told me
That your love is gold
I just keep on falling

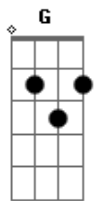

Said your love is endless
Thinking I believed
It was all defenceless
I was on my knees
Everybody told me
Think of your beliefs
I just keep on falling

Can you point me in a crowded room?

Every time I can I go look for you

When the time is right
When the stars align
You tell me that we're gonna be alright
But no one can see that I'm high

I took of the mask
Then i stoped the show
I finished performing
And the stage is cold
Everybody told me
That your love is gold
I just keep on falling

Said your love is endless
Thinking I believed
Yes I was defenceless
I'm still on my knees

Everybody told me
Think of your beliefs
I just keep on falling

(G D Em)

Keep on falling
Mm-mm
