

Killswitch Engage - Numb Sickened Eyes Intro

Tom: **A**

Im sucky at tabbing and this is my pathetic attempt at the intro, please let me know how much I suck, and send me threatening letters.

Tuning: Pretty sure its just dropped-d D, A, D, G, B, e

Play All of this twice I think, and then it gets too crazy, and my newb tabbing skills are exhausted.

update: fixed thingy I just found out K**sE** tunes down 1 full

step on this album. This tab works in this tuning for this part of the song. If you are smart you can probably figure out how to convert this tab to 1 step down. You will have to use powerchords.
