

King Princess - Talia

Tom: **D**

D
Hey, my love

I buried you a month or two ago
I keep thinking that you're standing on my floor
That you're waiting there for me
D
Hey, my love

You've walked out a hundred times, how was I
Supposed to know this time that you wouldn't call
That you wouldn't come home

But four drinks I'm wasted
G **A**
I can see you dancing, I can lay down next to you
Bm
At the foot of my bed

A
If I drink enough
G **A**
I can taste your lipstick, I can lay down next to you
Bm
But it's all in my head
Gm
If I drink enough I swear that I will wake up next to you

D
When you left, you took my bestest friends away
And in this mess, I think I dug a thousand graves
Talia, I hope you're happy anyway

But four drinks I'm wasted
G **A**
I can see you dancing, I can lay down next to you

Bm
At the foot of my bed
A
If I drink enough
G **A**
I can taste your lipstick, I can lay down next to you
Bm
But it's all in my head
Gm
If I drink enough I swear that I will wake up next to you

G **Gbm** **Bm** **A** **G**
Broke my heart now I'm wasting my time on you
G **Gbm** **Bm**
Broke my heart now I'm wasting my time

A
If I drink enough
G **A**
I can see you dancing, I can lay down next to you
Bm
At the foot of my bed
A
If I drink enough
G **A**
I can taste your lipstick, I can lay down next to you
Bm
But it's all in my head

But four drinks I'm wasted
