

Kingfishr - Eyes Don't Lie

```
tom:
Intro: Am7, F
Summered words and lessons learned
An eternity's walking you home
Feels like forever ago that I left you there, bleeding
Wish I'd known it was more than a game
Oh, Lord, feels like love just can't hit me the same
         G
But your eyes don't lie
Wouldn't have it any other way
       G
And I don't mind
It's just another thing I heard you saying
Hold my hand
Take a step and make a stand
And I'll call you when it's over
And I'll call you when it's over
Throwing stones and broken bones
And the tears washing off in the rain
Oh come home, oh come home
There's lies to be told
But I can't remember the way
Oh, Lord, I can hardly remember my name
But your eyes don't lie
```

```
Wouldn't have it any other way
And I don't mind
It's just another thing I heard you saying
Am7 G
Hold my hand
Take a step and make a stand
And I'll call you when it's over
And I'll call you when it's over
And I was hoping you'd be holding
I was hoping you'd be bleeding
I was hoping you'd be death, trapped by my side
                         Am7
And I was hoping you'd be holding
And I was hoping you'd be bleeding
                         Am7
And I was hoping you'd be death, trapped by my side
