Tom: D figure out just listening to it.

Verse Chorus

This song only uses two chords. It is in the key of ${\color{blue} E}$ and when I like playing power chords for the chorus he changes chords he

to D

The E Chord looks like this Solo

The D Chord looks like this

I'm not going to tab out the strum pattern or when the chords change. It's easy enough $% \left\{ 1,2,\ldots ,n\right\}$
