Dbm B
A Dbm B
[Verse 1]
See you in the western sky
On the best of nights
Out in the dark
You always seem to come my way
               Dbm
Come and take your shape
Out in the stars
I really want to know your name
               Dbm
See your face
Know who you are
Who you are
[Chorus]
E Gbm A Dbm B
            How did you find me, how did you find me?
F Gbm A Dbm B
            What are you looking for, what are you looking
for?
E Gbm A Dbm B
            How did you find me, how did you find me?
E Gbm A Dbm B
            I see your shadow knocking at my door
[Verse 2]
Waiting on the smoke to rise
              Dbm
From behind your eyes
```

```
Take me away
Follow me into the wild
              Dbm
With a twisted smile
I can't escape
And now I got you by my side
All my life
Day after day
Turn to grey
[Chorus]
E Gbm A Dbm B
            How did you find me, how did you find me?
E Gbm A Dbm B
            What are you looking for, what are you looking
E Gbm A Dbm B
            How did you find me, how did you find me?
E Gbm A Dbm B
            I see your shadow knocking at my door
[Instrumental]
A Dbm B
See you in the western sky
              Dbm
Behind your eyes
I can't escape from the grey
[Chorus]
            How did you find me, how did you find me?
E Gbm A Dbm B
            What are you looking for, what are you looking
for?

            I feel your shadow, what are you looking for?
