

Kodamine - Autopilot

tom:

Eb

I'm trying to connect with you **Eb**

To see the world the way you do **Ab**

Try 'n' understand what's in your head **Eb**

I'm hearing what you said **Ab**

'Cause I wanted to say **Eb**

When I see you this way **Ab**

Don't ever let it break your heart **Eb**

I'll go back to the start **Ab**

I'll watch you fall apart **Eb**

Feels like an empty space

You don't enjoy the taste **Ab**

I just need a place to hide

Somewhere to make you right **Eb**

If this isn't what you want

Head back to your own haunt **Ab**

And you'll find a missing piece

Not just a big relief **Cm**

Maybe you lost control **Bb**

Fallen into a hole **Db**

The way that it was before **Ab**

It's all that you're looking for **Cm**

A lover is all you need **Bb**

Someone that you can read **Db** **Ab**

Day in and day out **Bb**

Means this one is all, all about **Eb** **Ab**

Somebody, you need **Ab** **Eb**

Somebody, you need

Eb

Feels like an empty space

You don't enjoy the taste **Ab**

I just need a place to hide

Somewhere to make you right **Eb**

If this isn't what you want

Head back to your own haunt **Ab**

And you'll find the missing piece

Somebody that you need **Eb** **Ab**

Somebody, you need **Ab** **Eb**

Somebody, you need

Acordes
