                                                               If I was dying on my knees
    Em
                                                               You would be the one to rescue me
When we were young we were the ones
                                                               And if you were drowned at sea
The kings and queens, oh yeah we ruled the world
                                                               I'd give you my lungs so you could breathe
We smoked cigarettes, man no regrets
                                                               I've got you brother
Wish I could relive every single word
                                                                   Bm
                                                                        Em
                                                               I've got you brother
We've taken different paths and traveled different roads
                                                               And if we hit on troubled water
I know we'll always end up on the same one when we're old
                                                               I'll be the one to keep you warm and safe
And when you're in the trenches and you're under fire I will
                                                               And we'll be carrying each other
cover you
                                                                              Em
                                                               Until we say goodbye on our dying day
If I was dying on \ensuremath{\mathsf{my}} knees
                                                               Because I've got you brother
                                                                   Rm Fm

And if you were drowned at sea
                                                               I've got you brother

I'd give you my lungs so you could breathe

Oh brother, we go deeper than the ink
                                                               Oh oh oh, oh oh, oh oh
Beneath the skin of our tattoos
                                                                         G
                                                               Oh oh oh oh, oh oh, oh oh
     Em
Though we don't share the same blood
                                                               Oh oh oh, oh oh, oh oh
You're my brother and I love you, that's the truth
                                                               Oh oh oh oh, oh oh, oh oh
We're living different lives, heaven only knows
                                                               I've got you brother
If we'll make it back with all our fingers and our toes
                                                                   Bm
