

## Kodaline - The Answer

Tom: **G**

**G**  
**Em** Watch your step or you might fall  
**C** You act like you're a know-it-all  
**D** Yeah I used to do that, I used to be like that, I'm still a  
**G** bit like that  
**Em** You might think you found the one  
**C** Until your heart gets ripped and torn  
**D** Yeah I used to feel bad, I used to feel like that, still feel  
**G** a bit like that  
**C** But I'm not searching for the answer  
**D** I'm not looking for the truth  
**G** I'm just talking through a speaker  
**C** Because that's all that I have ever learned to do  
**G**  
**Em** Use your mind and make it talk  
**C**

Cause in this world it's all you got  
**C** And we all fall down from the highest clouds to the lowest  
**D** ground  
**G** Loneliness is worst of all  
**Em** When you got no one else to call  
**C** Feeling kind of sad when the times are bad, the times are  
**D** getting bad  
**G**  
**C** But I'm not searching for the answer  
**D** I'm not looking for the truth  
**G** I'm just talking through a speaker  
**C** Because that's all that I have ever learned to do  
**G**  
**Em** So watch your step or you might fall  
**C** You act like you're a know-it-all  
**D** Yeah I used to do that, I used to be like that, I'm still a  
**G** bit like that
