

# Kody West - Ogygia

tom:  
G

There's a shadow above this house  
It screams louder when I go out  
It knows my name and all my fears  
Although when the suns out it  
Disappears  
Oh it taunts me, in my dreams it  
Haunts me  
Oh it stalks me when I'm alone  
As I look over my shoulder, it's  
Standin' in the mirror  
But it don't say a word, 'cause it  
Knows (Hit Chimes On 14th Fret)  
You ask me twice, what is my name?  
I hear it screamin' it out from  
Miles away  
You never cared much about my pain  
But you'll feel it someday

Oh it taunts me, in my dreams it  
Haunts me  
Oh it stalks me when I'm alone  
As I look over my shoulder, it's  
Standin' in the mirror  
But it don't say a word, 'cause it  
Knows  
( C Em C B7 )

Calypso, my dear  
Hush now, do as I've done  
Don't make a sound  
Oh it taunts me, in my dreams it  
Haunts me  
Oh it stalks me when I'm alone  
As I look over my shoulder, it's  
Standin' in the mirror  
But it don't say a word  
No it don't say a word
