

# KT Tunstall - Another Place To Fall

Tom: C  
Intro: Em F Em F

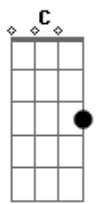

Em  
Are you blind  
Blind to me trying to be kind  
Volunteering for your firing line  
Waiting for one precious sign  
The flicker of a smile  
You should try it just once in a while  
Maybe it's not quite your style  
It's simply too easy to do  
And you might not see it through  
See it through  
So, find yourself another place to fall  
Find yourself up against another brick wall  
See your self as a fallen angel  
Well I don't see no holes in the road but you  
Find another place to fall  
Are you proud  
To have found a brand new behaviour  
With hatred and hurt as your saviour  
But nobody's choosing to follow  
So you choke back the tears and you swallow

Men who have ruined your life  
You consume them with minimum strife  
But now you have got indigestion  
The antacid comes as a question  
So, find yourself another place to fall  
Find yourself up against another brick wall  
See your self as a fallen angel  
Well I don't see no holes in the road but you  
Find another place to fall  
There isn't much more I can say  
For I don't understand the delay  
You're asking for friendly advice  
And remaining in permanent crisis  
Affection is yours if you ask  
But first you must take off your mask  
When your back's turned I've decided  
I'll throw it away just like I did  
So, find yourself another place to fall  
Find yourself up against another brick wall  
See your self as a fallen angel  
Well I don't see no holes in the road but you  
Find another place to fall
