

# kuba oms - My Love

tom:  
Intro: **Dbm**  
I wanna be your man  
Your lover and your friend  
I'm gonna love you true  
I wanna be the one you come home to  
[Primeira Parte]

It was Friday night, the moon was bright  
And the band was tight  
And I was flyin' when I met you  
You didn't seem to mind  
Spending your time with this crazy guy  
Who's eyes were wide open for you  
For a time we had it good  
I did the best I could  
Till I lost you on the way  
You stood up for yourself  
Had to put us on the shelf  
For another day  
[Pré-Refrão]

And I'll find some peace  
This Time I'll let you know  
We gonna grow  
I'm gonna show ya  
My heart and soul  
This time This time My love  
[Refrão]

I wanna be your man  
Your lover and your friend  
I'm gonna love you true  
I wanna be the one you come home to  
I'm gonna treat you right  
I'll do ya every night My love  
[Segunda Parte]

I'm feeling small when I make a call full of alcohol  
And then there's dead air on the phone with you  
With my disguise I didn't realize when I was hurting  
That I was hurting you too  
So when I lost my way

Couldn't think of what to say  
I watched us fall apart  
There's an opportunity  
It's here for you and me  
To make another start  
[Pré-Refrão]

And I'll find some peace  
This time I'll let you know  
We gonna grow  
I'm gonna show ya my heart and soul  
This time, this time  
My love  
[Refrão]

I wanna be your man  
Your lover and your friend  
I'm gonna love you true  
I wanna be the one you come home to  
I'm gonna treat you right  
I'll do ya every night My love  
[Ponte]

We need to find a way  
I need to follow through  
I need to find the faith  
To help us make it through  
Make it through

Hold on to my heart  
And my heart will carry you  
Will carry you and never let you go  
Hold on to my heart and my heart will carry you  
[Refrão]

I wanna be your man  
Your lover and your friend  
I'm gonna love you true  
I wanna be the one you come home to  
I'm gonna treat you right  
I'll do ya every night My love  
I wanna be your man  
Your lover and your friend

I'm gonna love you true  
I wanna be the one you come home to  
I'm gonna treat you right  
I'll do ya every night My love
