

Kygo - I See You (feat. Billy Raffoul)

Tom: G

Intro: D Em Bm G

You're more than just a notch in my belt

A story to tell

The only thing on my mind

And it's keeping me up at night

I know you're making magic somewhere

But not by yourself

That might be the reason why

It's keeping me up at night

I can smell you on the pillow where you used to lay

And it's keeping me up at night

And it's keeping me up

Another night, another strangers door

Hoping when it opens I'll see you

You

(D Em Bm G)

(D Em Bm G)

(Bm G D Em)

Wishing I could go back

Wishing I could go back

Wishing I could go back

Wishing I could go back

To that night

To that strangers door

Knowing when it opened I'd see you

You

That I'd see you

(D Em Bm G)

(D Em Bm G)

(D Em Bm G)

(D Em Bm G)

Do you see these eyes, when have you known me to cry?

I'm just sitting here remembering how your lips taste

And it's keeping me up at night

And it's keeping me up

Another night, another strangers door

Hoping when it opens I'll see you

You

(D Em Bm G)

(D Em Bm G)

(Bm G D Em)

Wishing I could go back

Wishing I could go back

Wishing I could go back

Wishing I could go back

To that night

To that strangers door

Knowing when it opened I'd see you

You

That I'd see you
