Chorus (hiding all my fear...)

Album: Unleashed Memories

Tab by: Ali

Solo (not exact mind you...cant' hear some parts...but anyway close enuff for me)

Tuning: Dropped **D** (DADGBE Low to High)

Key: b - bend

r - release

/ - slide up

\ - slide down

~ - hold

h - hammer on

p - pull off

Intro: Fig1.

Fig2.

(Intro starts with Fig1...and then alternates between Fig1. and Fig2.

Rhythm Guitar behind intro sounds suppressed...but is the same as the verse)

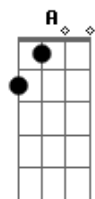

(Rhythm behind the solo is pretty much the same as that on the Verse marked above...there are minor variations where he hammers those chords with heavy palm muting...it's pretty obvious when you listen to it so i won't tab that out...solo might be a bit off...see if you can't do better...ciao)

Verse

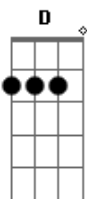

This tab is inspired by a fellow named Jason Thornton...cheers mate...hope you have fun playing it.
