

Lady Antebellum - Looking For a Good Time

Tom: G

(intro 4x) G B C

Girl youre beautiful

Youre bout near perfect

But I bet somebodys already told you that

Name your poison

Name your passion

Cause a boy like me just couldnt help but ask

Keep on talking to me baby

Im hanging on your every word

Keep those drinks a coming maybe

Well both get what we deserve

(refrão)

How bout baby

We make a promise

To not promise anything more than one night

Complicated situations

Only get worse in the morning light

Hey Im just lookin for a good time

(G B C) (4x)

(verse 2)

Put in a long hard week doing this 9 to 5

And youre just the girl to get that off my mind

You shouldnt ve worn that dress

You shouldnt dance like that

You got this little heart of mine in overdrive

I sure love this conversation

The band is good, the musics loud

But would you get the wrong impression

If I called us a cab right now

(refrão)

(G B C) (4x)

(bridge)

Go ahead and lie to me and pull me close

Tell me that you love me even if you dont

The rule is dont you ever even talk about forever

But you never say never in life

(refrão)

Hey Im just lookin for a good time

(outro) G B C (3x) G
