

Lady Gaga - Come To Mama

Tom: C

[Verse 1]

Everybody's got to love each other
Stop throwin' stones at your sisters and your brothers
Man, it wasn't that long ago we were all living in the jungle
So why do we gotta put each other down
When there's more than enough love to g-g-go around?

[Chorus]

Come to mama
Tell me who hurt ya
There's gonna be no future
If we don't figure this out

[Verse 2]

Dude in a lab coat and a man of God
Fought over prisms and a forty-day flood
Well, I say rainbows did more than they've ever done
So why do we gotta fight over ideas?
We're talkin' the same old shit after all of these years

[Chorus]

Come to mama
Tell me who hurt ya
There's gonna be no future

If we don't figure this out
Oh, come tomorrow
Who are you gonna follow?
There's gonna be no future
If we don't figure this out

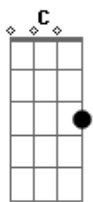

[Bridge]

Psychic guru catches minnows in the harbor
Everyone tells him he should work a little harder
They all tell you that freedom must be bought But, baby, he's already caught them
So why do we gotta tell each other how to live?
The only prisons that exist are ones we put each other in

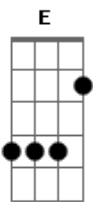

[Chorus]

Come to mama
Tell me who hurt ya
There's gonna be no future
If we don't figure this out
Oh, come tomorrow
Who are you gonna follow?
There's gonna be no future
If we don't figure this out
