

Lady Gaga - Enigma

tom:

G

Open-minded, I'm so blinded

Mystery man, woman phantom

A **G**

Violet light smears the atmosphere

I'm so scared, but I'm standing here

F **G** **A**

Is what I am seeing real, or is it just a sign?

F **G**

Is it all just virtual?

A **F**

We could be lovers, even just tonight

G

We could be anything you want

A **F**

We could be jokers, brought to the daylight

G

We could break all of our stigma

A **F**

I'll, I'll be your enigma

G

I'll, I'll be your enigma

A **F**

I'll, I'll be your enigma

G

I'll, I'll be your enigma

A **G**

Can't stop staring, I'm so naked

Wrapped in shadows, my heart races

A **G**

Dragon's eyes watch, goddess breathing

Give me something to believe in

F **G** **A**

Is what I am seeing real, or is it just a sign?

F **G**

Is it all just virtual?

A **F**

We could be lovers, even just tonight

G

We could be anything you want

A **F**

We could be jokers, brought to the daylight

G

We could break all of our stigma

A **F**

I'll, I'll be your enigma

G

I'll, I'll be your enigma

A **F**

I'll, I'll be your enigma

G

I'll, I'll be your enigma

A

Did you hear what I said? (What?)

F

Did you hear what I said? (Yeah)

G

Is it all in my head?

Is it all in my head? (Ooh, yeah)

F **G**

Is it all in my head?

A **F**

We could be lovers, even just tonight

G

We could be anything you want

A **F**

We could be jokers, brought to the daylight

G

We could break all of our stigma

A **F**

I'll, I'll be your enigma, even just tonight

G

I'll, I'll be your enigma, brought to the daylight

A **F**

I'll, I'll be your enigma, even just tonight

G

I'll, I'll be your enigma, brought to the daylight, daylight
