                           tom:
                       G

                 B             Gb
    Feeling something that I can't explain
Abm                         E
    Think it's a wound I still entertain
B                 Gb
    I'd do anything to numb the flame
Abm                     E
    I guess I'm just on fire these days

B              Gb           Abm
    I can't see straight, I can't see me
               E           B
There's too much hurt caught in between
           Gb        Abm
Wish I could be what I know I am
         E
This moments hijacked my plans

B     Gb                          Abm        E
I'm feeling the way that I'm feeling, I'm feeling with you
B     Gb                          Abm         E
I stare at the girl in the mirror, she talks to me too
         B                 Gb
Yeah, I can see it in your face, you don't think I've pulled
my weight
Abm                       E
    Maybe it's time for us to say goodbye cause
B     Gb                          Abm        E
I'm feeling the way that I'm feeling, I'm feeling with you

I'm not having fun tonight

B                   Gb
    You love the paparazzi, love the fame
Abm                     E
    Even though you know it causes me pain
B                     Gb
    I feel like I'm in a prison hell
Abm                       E
```

```
    Stick my hands through the steels bars and yell
B          Gb        Abm
    What happens now, I'm not okay
             E         B
And if I scream, you walk away
         Gb          Abm
When I'm sad you just wanna play
             E
I've had enough, why do I stay?

B     Gb                          Abm        E
I'm feeling the way that I'm feeling, I'm feeling with you
B     Gb                          Abm        E
I stare at the girl in the mirror, she talks to me too
         B                 Gb
Yeah, I can see it in your face, you don't think I've pulled
my weight
Abm                       E
    Maybe it's time for us to say goodbye cause
B     Gb                          Abm        E
I'm feeling the way that I'm feeling, I'm feeling with you

I'm not having fun tonight

B          Gb        Abm

         B                 Gb
Yeah, I can see it in your face, you don't think I've pulled
my weight
Abm                       E
    Maybe it's time for us to say goodbye cause
B     Gb                          Abm        E
