

Lady Gaga - Lovedrug

tom:
 Need your ^{Em} love, your love ^C drug, your love ^G drug
 Need your love ^D drug

^{Em} River in my eyes, I've got a poem in my throat
 I hear the music and it takes me by surprise
^{Em} Pictures in my mind, they come on faster than they go
 Another round, hopin' this one will make me blind

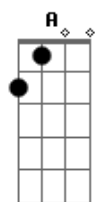

^C I know this time
 I won't escape these thoughts in my head
^C I need you tonight
 But I'm gonna fight the feeling instead

^{Em} I don't wanna feel, I don't wanna cry
 So I'm gonna dance until I feel alright
^{Em} I just need a dose of the right stuff
^G I just need a hit of your love drug
^{Em} I don't wanna feel, I don't wanna cry
 So I'm gonna dance until I feel alright
^{Em} I just need a dose of the right stuff
^G I just need a hit of your love drug

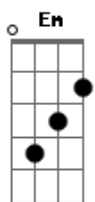

^C Your love drug

^{Em} Thought we'd last a lifetime, when I'm mumbling alone
