[Refrão]
                                                                   Keep my name out your mouth
                                                                                  Ah

                                                                I know what you about
You ain?t got me right
                                                                So keep my name out your mouth, oh yeah
Don't call me angel
                                                                [Refrão]
You can't pay my price
                                                                Boy, don't call me angel
Ain?t from no heaven
                                                                You ain?t got me right
Yeah you heard me right (yeah, you heard me)
                                                                Don't call me angel
Even though you know we fly (though you know we)
                                                                You can't pay my price
Don't call me angel
                                                                Ain?t from no heaven
[Primeira Parte]
                                                                Yeah you heard me right (yeah, you heard me)
Uh, don't call me angel when I'm a mess
                                                                Even though you know we fly (though you know we)
Don't call me angel when I get undressed
                                                                Don't call me angel
You know I, I don't like that, boy
                                                                [Ponte]
Uh, I make my money and I write the checks
                                                                I appreciate the way you watch me, I can't lie
So say my name with a little respect
                                                                I drop it down, I pick it up, I back it off the county line
All my girls successful, and you're just our guest
                                                                I fell from heaven, now I'm living like a devil
[Pré-Refrão]
                                                                You can't get me off your mind
  Do I really need to say it?
                                                                I appreciate the way you want me, I can't lie
 Do I need to say it again, yeah?
                                                                I drop it low, I back it up, I know you wanna think you're
 You better stop the sweet talk
And keep your pretty mouth shut
                                                                Baby, I totally get it, you can't guess so
