                                                                                                      (with you)
                            tom:
                                                                  Left the canyon, drove to the club
                                        E7
  Do you want me or do you not?
                                                                I was one thing, now I'm being another
I heard one thing, now I'm hearing another
                                                                  Go down to Sunset in my truck
                                                                I'll pick you up if you're in town, I'm coming, ah-ah ha-ha
  Dropped a pin to my parking spot
The bar was hot, it's 2am, it feels like summer
                                                                                           Am
                                                                   Happiness is a butterfly, we should catch it while dancing \bar{\ }
   Happiness is a butterfly, try to catch it like every night
                                                                I lose myself in the music, ba-?by
                                                                   Everyday is a lullaby, try to catch it like lightning
   It escapes from my hands into moonlight
   Everyday is a lullaby, hum it on the phone like every night I sing it into my music, I'm cra-zy
  And sing it for my babies on the tour life, ah-ah ah
                                                                  If he's a serial killer, then what's the worst
