[Verso 1]
I'm smoking while I'm runnin' on my treadmill

But I'm coming up roses
Could it be that I fell for another loser?
I'm crying while I'm gunnin'

Making love while I'm making good money
Sobbin' in my cup of coffee
Because I fell for another loser

[Pre-Refrão 1]
Get that cigarette smoke out of my face
You've been wasting my time
While you're taking what's mine, with the things that you're doing
Talk that talk, well now they all know your name
And there's no coming back from the place that you came
Baby, don't do it

[Refrão]
'Cause you got me in my feeeeeeeelings (got me feeling so much right now)
Talking in my sleeeeeeep aaaagain (I'm making love songs all night)
Drown out all our screeeeaaaamm (Got me feeling so crazy right now)
Who's doper than this bitch?
Who's free-er than me?
You wanna make the switch'
Be my guest, baby
I'm feeeeeeeeling all my fucking feeeeeeeelings

[Verso 2]
I'm smoking while I'm running
This town and you better believe it honey
I'm laughing as I'm taking no prisoners
And taking down names
I'm crying while I'm gunning
In the smoke they can hear me coming
If you were me, and I was you
I'd get out of my way

Got me up in this place right now
Making no sense at all
Got me up in this place right now,
Against the wall
Got me feeling so blue
Making no sense at all
Gotta leave right now
